Fall 2016 – MAT 6932

Section
09/26 (DEPX)

Time and Location
M W F Period 4 (10:40 am – 11:30 am), in LIT 223

Textbook
The course will be based on lecture notes.

Prerequisites
5000-level Algebra and Analysis are strongly recommended; please consult the instructor if you have any questions.

Brief Description
We will cover various topics in \(q\)-series, partitions, and quadratic forms.

Homework
Homework will be assigned regularly but not collected. However, doing all the homework is essential for success in this class as exams (one midterm and one final) will be based on the homework. Students will also be expected to give some presentations.

Attendance
Attendance is mandatory. Also, please arrive to class before it starts; it is very disruptive when someone walks in late.

Make-ups
Make-up exams will not be administered unless they are supported by valid documentation.

Student Honor Code
Students are expected to abide by the Honor Code.

Accommodations
Students requesting classroom accommodations must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to their instructor when requesting accommodations.

Disclaimer
I reserve the right to change the above policies if situations warrant.
