Elementary Differential Equations (MAP2302)

Fall 2016: Section 4985, MWF 3rd hour, Little Hall, room 219
Email: mjury@ufl.edu
Office: Little Hall 484
Office hours: TBA

Course Content
MAP 2302 is a 3 credit course which gives the basic knowledge necessary for understanding, applying, and solving differential equations of the most usual types (Chapters 2, 4, 6, and 7 of the text).
Topics covered include: first order methods (separability, exactness, integrating factors, first order linear equations, Bernoulli equations); higher order constant coefficient equations (including particular solutions and general solutions via undetermined coefficients); and Laplace transform methods. Applications to physical problems will be included at various points in the course.

This week’s lectures
Monday 8/22: Introduction to the course, Newton’s law of cooling example. Initial value problems.

Past Lectures

Homework assignments
Homework problems will be assigned daily; homework will not be collected or graded but exam questions will be based on material covered in the homework assignments.

Homework problems will be listed in this space as the course progresses.
8/22: Section 1.1, all problems. Reading: Sections 1.1 and 1.2
8/24: Section 2.2: 7, 9, 11, 13, 16, 21, 23, 25, 30, 34, 35. Reading: Sections 2.1 and 2.2

Grading policies
There will be quizzes every week in which there is not an exam. The course grade will consist of the quiz average (25% of the final grade) and three midterm exams (25% each). (The lowest two quiz scores are dropped before computing the final grade, because of this there are no make-up quizzes.) Final grades are assigned according to the standard scale: 94-100 A, 90-93 A-, 87-89 B+, 83-86 B, 80-82 B-, 77-79 C+, etc.

Tentative exam dates are as follows:
Exam 1 TBA
Exam 2 TBA
Exam 3 TBA

The final exam (Thursday, Dec. 15th, 3:00-5:00 PM) will serve as a make-up.
No notes or books will be allowed during exams.

Additional Information:
Grades
Grading will be in accord with the UF policy stated at

Academic Honesty
The course will be conducted in accordance with the University honor code and academic honesty policy, which can be found in the
student guide

Accommodation for students with disabilities.
“Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565),
https://www.dso.ufl.edu/drc/”
by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

Online Evaluations.
“Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at
https://evaluations.ufl.edu
Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at
https://evaluations.ufl.edu/results/.”
