The course home page is located in Canvas. Log in at https://ufl.instructure.com/.

You can send a message to the Online Coordinator below by going to your inbox in Canvas and selecting “Compose a new message”. If you are requesting assistance on a certain problem, please include details showing your work on the problem; feel free to attach a photo/screenshot of your work.

Online Coordinator / Instructor (who to contact with questions)
Ryan Nikin-Beers
Email: rnikinbeers@ufl.edu (please use Canvas if possible)

Online office hours: Monday 7th period (1:55 -2:45 pm), Tuesday 6th period (12:50-1:40 pm), or by appointment

Zoom will be used for meetings. Office hours on the Calendar on Canvas include the link https://ufl.zoom.us/j/5502690875 to the meeting room. More information about how to join a meeting can be found at the following link.
https://elearning.ufl.edu/media/elearningufledu/zoom/How-to-Join-a-Meeting.pdf

Alternatively, you can join office hours at https://ufl.zoom.us/join and use the meeting ID 550-269-0875.

Lecturer (credited only; please do not contact with questions)
Dr. Kevin Knudson

1. Course Info

1a. Course Content
Sequences, geometric and Taylor series; systems of linear equations, Gaussian elimination, matrices, determinants and vectors; partial differentiation, multiple integrals; applications to marginal analysis, least-squares and Lagrange multipliers.

1b. Prerequisites
Minimum grade of C in MAC2233. Students should have a solid working knowledge of the concepts of first semester calculus, including the definition of the derivative, calculations of derivatives of elementary functions, applications of the derivative, exponential and logarithmic functions. A thorough grasp of algebra is assumed.

1c. Course Objectives
By the end of this course, students will understand concepts of integral calculus, applications of differential equations, the calculus of functions of several variables, systems of linear equations, and linear programming problems with a focus on applications in business, accounting, and finance.

1d. Instruction Methods
Students will learn material via online lectures. These come in two varieties: (i) presentations of the material using prepared slides, and (ii) examples worked by hand by the lecturer, captured on video. Students are expected to read the corresponding sections in the text, work practice and homework problems, and successfully complete associated quizzes. Exams will be given online and monitored by ProctorU.

1e. Required Materials
- A (non-graphing, non-programmable) scientific calculator, something similar to (but not more advanced than) the Texas Instruments TI-30X IIS.
- WebAssign access code
  - A WebAssign access code (includes access to homework, exams, and the e-book) can be purchased at a discount and charged to your UF account by using the following link.
  - Access to the e-book versions of the textbooks for this course is included in WebAssign. **You do not need to purchase textbooks separately.**
  - WebAssign provides a grace period before you must purchase or enter an access code. The grace period expires on September 2, 2019.
  - Details about logging in to WebAssign are given later in this syllabus.
1f. Optional Materials/Textbooks

- The textbooks used in this course are as follows. Note that the required WebAssign access includes access to the e-book versions of these books.

1g. Canvas

Canvas is located at [https://ufl.instructure.com/](https://ufl.instructure.com/); use your Gatorlink username and your password to log in. You will find the lecture videos, lecture quizzes, and the weekly quizzes in Canvas. All grades will be input into Canvas as well. You are responsible for verifying that your grades in Canvas are accurate. You have one week after a score has been posted to contact your instructor if you believe there has been a grading or a recording error. All grades are final one week after they have been entered into Canvas.

**Note:** Important information may be included in the announcements in Canvas. You are expected to read them.

1h. WebAssign

**Note:** WebAssign and Canvas are separate systems, so there will be a delay before your scores in WebAssign are copied over to Canvas. Scores will not be copied over until after the due date for an assignment has elapsed.

In WebAssign, you will find your weekly online homework and the exams. The online homework can be completed early, but the exams cannot, so you should not expect to see exams shown in WebAssign until they are available to be completed.

To log in to WebAssign, you should always use the WebAssign link on Canvas found under the Modules tab under the “Start Here” heading.

The first time you log in to WebAssign through Canvas, you may be prompted to create a Cengage account if you do not yet have one. However, as long as you log in to WebAssign through Canvas, there should be no other need for the Cengage account in this class.

When entering answers into WebAssign, be aware that answers should be exact (no rounding) unless stated otherwise.

Help with using WebAssign is available through their online help manual. Help is also available 24/7 through WebAssign Customer Support.
2. Policies

2a. Getting Help

For help resolving technical issues (computer problems, Gatorlink, etc.), contact the UF Computing Help Desk at http://helpdesk.ufl.edu, call them at 352-392-HELP (4357), or walk-in to visit them at HUB 132.

Your instructor (the Online Coordinator listed on the front page of the syllabus) is glad to help. If you're seeking help on a specific problem, you should first have attempted the problem yourself. Then, you can take a snapshot of your work and attach that to a message (to the Online Coordinator) in Canvas requesting help. Office hours are also available, as indicated on the cover of this syllabus.

Also, be sure to check out http://www.distance.ufl.edu/getting-help, which includes links for counseling and wellness resources, disability resources, library help desk support, and more.

2b. Late Assignments

Late submissions are not accepted. All due times are set to 11:59pm Eastern time.

2c. Make-up Policy

Due to the ability to work ahead on most assignments and the fact that most assignment categories have multiple drops, most assignments will not be permitted make-ups. Make-up exams may be given for extreme unforeseen circumstances and will require sufficient documentation. However, any student (regardless of circumstances or documentation) may use their Final Exam score to replace a single lower midterm exam score if it benefits them to do so.

2d. Incomplete Grade

A grade of I (incomplete) will be considered only if you meet the Math Department criteria which are found at http://www.math.ufl.edu/department/incomplete-grades/. An I only allows you to make up your incomplete work, not to redo your work. Also, any request for an I must be received before the Final Exam.

2e. Students with Disabilities

Students requesting accommodation must first register with the Disability Resource Center. (See https://drc.dso.ufl.edu/) The Dean of Students will provide documentation to the student who must then provide this documentation to the Online Coordinator when requesting accommodation.

2f. Academic Honesty

The official Student Honor Code and Student Conduct Code can be found at https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/. If you have never read through those, then you should do so now. In particular, there is the Honor Pledge:
We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity by abiding by the Student Honor Code. On all work submitted for credit by Students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.”

Any dishonorable activities should be reported immediately. Any student caught cheating will automatically fail the course and will be subject to additional honor court penalties. Students are expected to do their own work unless otherwise specified. If you have any doubt, you should ask for clarification before you commit a possible violation.

2g. Distance Learning Complaints
Each online distance learning program has a process for student complaints within its academic and administrative departments at the program level. Go to http://www.distance.ufl.edu/student-complaint-process for more information.

2h. Instructor Evaluations
Students are asked to provide feedback on the quality of instruction in this course by completing online evaluations at https://evaluations.ufl.edu. Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results.

3. Testing with ProctorU
You must sign-up with ProctorU for each exam at least 72 hours (3 days) prior to the exam date to avoid a late sign-up charge. It is highly recommended that you reserve your exam time slots for all of your exams early in the semester in order to guarantee you can take the exam at the most convenient time for you. See the calendar for the dates of the exams.

To help avoid technical issues, ProctorU recommends that you use a hard-wired connection as opposed to wireless. For questions about ProctorU, contact their 24/7 help desk at https://www.proctoru.com/testitout. You can contact their help desk and speak with a live representative to ensure your camera and system are operating correctly prior to the exam.

3a. Testing Environment
You should obey the following rules regarding your testing environment. Failure to follow these rules may result in appropriate sanctions being applied.

1. Arrange to have a room with four walls, a desk or table, doors closed (and lockable), and no one else present. You should be facing a plain wall (not a
1. Make sure you take your exam in a room that is not suitable, you will not be allowed to continue with the exam.

2. Make sure you won’t be disturbed by others. Any recorded disturbance will be reported by ProctorU as possible cheating, in which case we may impose a penalty (among other possible sanctions).

3. Before your appointment, clear your testing area of everything except:
   - UF ID card (a passport or state ID can be used in a pinch),
   - writing instruments,
   - scientific calculator (non-graphing, non-programmable),
   - up to 10 sheets of completely blank (both sides), white scratch paper.

   Anything else will be flagged as an unpermitted resource and may be reported by ProctorU as possible cheating.

3b. During an Exam

   You should obey the following rules during an exam. Failure to follow these rules may result in appropriate sanctions being applied.

   1. During the exam, avoid looking anywhere other than at your computer and your scratch paper. Any other glances may be picked up by ProctorU and reported as cheating, in which case we may impose a penalty (among other possible sanctions).

   2. If your connection with ProctorU goes down, then stop everything. Sometimes it is a momentary and passing thing, and sometimes it is a more serious problem. You are at this point permitted to retrieve your phone for the purposes of making sure it is on and receiving any calls from ProctorU.

   3. At the end of your exam, you must contact your proctor to let them know you have finished. Your proctor will then give you instructions that you must follow. If you disconnect before the proctor witnesses you logging out of everything according to their directions, then they will report it as possible cheating, and you will be subject to being penalized (whether you were actually cheating or not).

4. Grading

   You should check Canvas regularly and consult with the Online Coordinator if you have any questions about recorded grades. All grade concerns must be taken care of within one week of receiving the score in Canvas. Your grade is subject to being raised or lowered if there is a recording error, computational error, “padding” error, etc. All grades are final one week after they are entered into Canvas.

   For information on dropping courses and withdrawals, go to https://catalog.ufl.edu/ugrad/current/regulations/info/drops.aspx.
For information about UF grades and grading policies go to https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx.

4a. Course Grade

Here are the different assignment categories, as well as their weights in your course grade computation, where to find the assignments, and the number of submission attempts allowed per assignment (or per question part, in the case of homework).

<table>
<thead>
<tr>
<th>Category</th>
<th>Number</th>
<th>Drops</th>
<th>Location</th>
<th>Weight</th>
<th>Attempts</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lecture Quizzes</td>
<td>30</td>
<td>5</td>
<td>Canvas</td>
<td>8%</td>
<td>1</td>
</tr>
<tr>
<td>Weekly Homework</td>
<td>13</td>
<td>2</td>
<td>WebAssign</td>
<td>8%</td>
<td>5</td>
</tr>
<tr>
<td>Weekly Quizzes</td>
<td>13</td>
<td>2</td>
<td>Canvas</td>
<td>12%</td>
<td>1</td>
</tr>
<tr>
<td>Midterm Exams</td>
<td>3</td>
<td>0*</td>
<td>ProctorU/WebAssign</td>
<td>48%</td>
<td>1</td>
</tr>
<tr>
<td>Final Exam</td>
<td>1</td>
<td>0</td>
<td>ProctorU/WebAssign</td>
<td>24%</td>
<td>1</td>
</tr>
</tbody>
</table>

Total: 100%

The course grade is then determined by your final percentage as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>90.00% and above</td>
<td>C</td>
<td>70.00% to 73.99%</td>
</tr>
<tr>
<td>A−</td>
<td>87.00% to 89.99%</td>
<td>C−</td>
<td>67.00% to 69.99%</td>
</tr>
<tr>
<td>B+</td>
<td>84.00% to 86.99%</td>
<td>D+</td>
<td>64.00% to 66.99%</td>
</tr>
<tr>
<td>B</td>
<td>80.00% to 83.99%</td>
<td>D</td>
<td>60.00% to 63.99%</td>
</tr>
<tr>
<td>B−</td>
<td>77.00% to 79.99%</td>
<td>D−</td>

</tr>
<tr>
<td>C+</td>
<td>74.00% to 76.99%</td>
<td>E</td>
<td>56.99% and below</td>
</tr>
</tbody>
</table>

4b. Lecture Quizzes

In Canvas, there is one untimed quiz per lecture, and the five lowest are dropped. These quizzes are meant to be completed following the lectures.

4c. Weekly Homework

In WebAssign, there is one homework assignment per week, and the two lowest scores are dropped. You will have up to 5 submission attempts per problem.

* Your lowest midterm exam score can be replaced with your Final Exam score if it helps your final grade.
4d. Weekly Quizzes

In Canvas, there is a timed quiz per week, and the two lowest scores are dropped. These quizzes are meant to be completed following the homework and any additional practice or studying.

4e. Exams

All exams are in WebAssign but are proctored through ProctorU, but they will not be visible in WebAssign until the start of the exam window. You must sign up for an appointment with ProctorU, and during that appointment they will open the exam for you and monitor while you take the exam. You will have 105 minutes for each midterm exam, and 120 minutes for the Final Exam.

5. Calendar Dates

<table>
