- Description and Objectives of the Course:

This course is a continuation of MAP 2302. It covers the power series method, systems of linear ODEs, and the introduction to PDEs.

Weekly Schedule:
W1: Power series method revisited;
W2: Equations with analytic coefficients;
W3: Singular equations, method of Frobenius;
W4: Special Functions;
W5: Review of matrices, linear algebra;
W6: Linear systems of ODEs, variation of parameters;
W7: Systems with constant coefficients, the method of Euler;
W8: The matrix exponential;
W9: Linear PDEs, separation of variables;
W10: Fourier series;
W11: Heat equation;
W12: Wave equation;
W13: Laplace's equation;
W14: Examples and applications.

- Grading System:

Letter Grade: A, A-, A+ (26 points each, best 2 count); 1 (cumulative) final (40 points). Midterms based on homework assignments. To summarize, 60 points for Midterms, 40 points for Final Exam, and 100 points altogether. The resulting score determines the letter grade according to the following table:

- Course policies:
- Closed-book policy: No use of graphic calculators, computer algebra systems, or books will be allowed during any in-class testing (quizzes). Scientific calculators are allowed.
- Policy related to make-up exams or other work: There will be no opportunities to make up for work not submitted. However, if a student provides a legitimate excuse well in advance, a change of due date may be arranged. Work with due date should be turned in at the beginning of class on the stated due date. Late work will not be accepted and will be deemed work not submitted.
- Policy on class attendance: Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found in the online catalog at: https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx.
- University’s honesty policy: UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code”. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code (http://www.dso.ufl.edu/ccsc/process/student-conduct/honor-code/) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

- For students with disabilities: Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation.

- Students’ evaluations of the course: Students are expected to provide feedback on the quality of instruction in this course based on 10 criteria. These evaluations are conducted online at https://evaluations.ufl.edu.
