

MAC 2233
FALL 2022

SYLLABUS

COURSE TITLE: Survey of Calculus 1

CATALOG DESCRIPTION: Geometric and heuristic approach to calculus; differentiation and integration of simple algebraic and exponential functions; applications to graphing, marginal analysis, optimization, areas and volumes.

COURSE CONTENT: MAC 2233 is the first in the two-semester sequence, MAC 2233 and MAC 2234, surveying the important ideas of calculus but emphasizing its applications to business, economics, life, and social sciences. The course covers important precalculus topics: basics of functions and graphing and their applications as models (linear, quadratic, rational, exponential, and logarithmic), as well as calculus topics: limits, differentiation and applications of the derivative, introduction to integration and its applications including area (volume is not covered). This course does not cover trigonometry.

A minimum grade of C (not C-) in MAC 2233 satisfies three credits of the university General Education quantitative requirement.

PREREQUISITES: Any of the following minimal acceptable score on the online mathematics placement exam, a minimum grade of C in a MAC course numbered 1140 or higher; AP credit on MAC 2311; IB credit for a MAC course numbered 1140 or higher.

MAC 2233 assumes that the students have essential precalculus skills necessary to succeed in calculus and we will review the most important topics of precalculus at the beginning of the semester. We strongly recommend that the students who are having difficulty with the precalculus material consider taking MAC 1140, a 3-credit review of Precalculus Algebra. You may switch courses on ONE.UF during the drop-add period. In an agreement with the Registrar's office, you have one additional week to drop back to MAC 1140 – after the drop-add period, the paperwork to move back to precalculus MAC 1140 must be completed through the Math department (see the Instructor, Dr. Williamson).

INSTRUCTOR: **Dr. Larissa Williamson**
Office: LIT 380
Office Hours: TBA
E-mail: lwill@ufl.edu
Webpage: <https://people.clas.ufl.edu/lwill/>

E-Learning (Canvas): <https://elearning.ufl.edu/>

E-MAIL: Preferred way of communication is **e-mail** via Canvas **Inbox** tool

Course Calendar

Fall 2022	Monday	Tue	Wed	Thursday	Friday
August	22	23	24 M1 L	25	26 M2 L
September	29 M3 L	30	31 M4 L	1 HW M01-M03	2 M5 L
	5 Labor Day	6	7 M6 L	8 HW M04-M05 Bonus Project due	9 M7 L Quiz-Unit1: M1-5
	12 M8 L	13	14 M9 L	15 HW M06-M08	16 M10 L
	19 M11 L	20	21 M12 L	22 HW M09-M11	23 M13 L
	26 Review2 L	27 HW M12-13	28 M14 L Exam-Unit2: M6-13	29	30 M15 L
October	3 M16 L	4	5 M17 L	6 HW M15-M16	7 Homecoming

	5 Review5 L	6 HW M33-M36	7 Quiz-Unit5: M31-36	8 Reading Day	9 Reading Day

The Final Exam will be given on Saturday, December 10

Delivering Content

TEXTBOOK & ACCESS CODE: We use the following textbook in this course:

Calculus with Applications, 12th edition,
by Margaret L. Lial, Raymond N. Greenwell, Nathan P. Ritchey*

Access code to **MyLab and Mastering** is required in the course. **Access code can be obtained through [UF All Access](#) program by authorizing charges to your student financials account and is provided at a reduced price.** ** This option will become available starting one week prior to the beginning of the semester and ends three weeks after the first day of class.

If you do not wish to authorize charges to your student financials account, you may purchase access code at the Campus bookstore instead (<https://www.bkstr.com/floridastore>), which will be more expensive than opting-in.

* Registration with MyLab gives you an access to an electronic version of the textbook. If you wish to have a print text, you may purchase it at the bookstore.

****Please see Course Tools & Technology → Course Materials & Registration Instructions on E-Learning (Canvas) for complete information on obtaining access code through UF All Access and registration with MyLab and Mastering.**

LECTURE NOTES: Lectures in this course are delivered using Lecture notes shells which can be printed from each Module on Canvas or from the Canvas page Lecture Notes. Lecture notes shells make note taking easier and are required in the course. The whole set of Lecture Notes (Course Pack) will be available for purchase at Target Copy: it can be either picked up at the location (1412 W University Ave, Gainesville, FL 32603) or ordered online (<http://target-copy.com/>) and it will be shipped to you.

TEXTBOOK READINGS: Reading the textbook is a part of learning process. The students are strongly recommended to read the corresponding sections of the textbook after (or before) viewing a lecture and before doing homework on MyLab (see Lectures and On-line Homework in this Syllabus). The pages of the textbook that match content of the lectures are listed in Canvas Modules.

Course Structure

The Course Management System is E-Learning (Canvas): <https://elearning.ufl.edu/>

Course material is divided into **5 Units** with a total of 36 conceptional Modules, M01-M36. (See the last page of this Syllabus for detailed Module Coverage.)

<u>Unit 1</u>	M01 – M05	Review of Algebra
<u>Unit 2</u>	M06 – M13	Functions & Mathematical Models
<u>Unit 3</u>	M14 – M22	Limits & Derivatives
<u>Unit 4</u>	M23 – M30	Differentiation & Applications
<u>Unit 5</u>	M31 – M36	Integration & Applications

LECTURES: The students are required to attend live lectures on the dates indicated on the Course Calendar as “M# L” or “Review# L” and the lecture participation will be taken (see Lecture Participation below). If you miss a live lecture, you can watch it later from the corresponding Module on Canvas.

MODULES & DUE DATES: It is advisable to start working on a Module no later than on the date indicated on the Calendar as “M# L” or “Review# L”, when the corresponding live lecture is delivered, so that you can stay on track and avoid having too many Modules to complete by the Due Date. Working on M01-M36 requires watching the Lecture and completing MyLab assignments which include Online Homework (HW) and Learning Catalytics quiz (LC). Working on a Review module, which is the last one in each Unit, will help you to prepare for an Exam or a Quiz - a MyLab assignment required to be completed for each Review Module is the LC quiz (no HW). (See sections On-line Homework and Lecture Participation in this Syllabus.)

TEXTBOOK HOMEWORK: Textbook homework problems are assigned after each lecture. **They will not be graded** but should be considered as an additional tool for mastering the material. Lists of recommended Textbook Homework problems are located in Canvas Modules.

Assessments

ON-LINE HOMEWORK: Each online **Homework assignment** (HW) is a set of problems assigned on MyLab and numbered according to the Module covered. A HW assignment will give you necessary practice for mastering the material delivered in lecture. Each homework assignment is due at 11:59 pm on the due date which is indicated on the Course Calendar, on Canvas, and on MyLab & Mastering. **A HW will be closed after the deadline and cannot be re-opened without a legitimate reason.** A credit for a HW will be given according to the percent value of the correct work completed. Review of a completed HW is available through MyLab gradebook, but a non-attempted HW cannot be reviewed. There will be a total of 36 homework assignments offered and the **2 lowest scores will be dropped** at the end of the term.

LECTURE PARTICIPATION: Starting with the second week of classes, lecture participation quizzes will be given in the lecture hall during each lecture. The students are required to register with **MyLab & Mastering** in order to use Pearson’s **Learning Catalytics (LC)** software and get points for participation. The students will access LC from Canvas by clicking on the link **MyLab & Mastering** on the left-hand panel. The active session will be shown on MyLab Homepage. The students simply click on the active session number to join. LC allows the students to use their smartphone, tablet, or laptop to respond to the questions in class, and their responses will be graded and recorded in the gradebook. A total of 37 sessions will be graded. There will be 2 questions per session. Each question is in a “multiple-choice” format and worth 1 point. The grade will be assigned as 75% for participation and 25% for correctness. The student will receive a full credit of 1.75 points by attempting two questions and answering one correctly. If the student answers both questions correctly, they will receive 2 points for the session, which includes 0.25 bonus. **One lowest score on LC quizzes will be dropped at the end of the term.**

EXAMS & QUIZZES: There will be three Unit Exams, two Unit Quizzes, and the Final Exam offered during the term on the dates indicated on the Calendar.

The Unit Exams and the Final are assembly exams: Unit Exams will be given from 8:20 pm to 9:50 pm and the Final is scheduled between 3 pm and 5 pm. The room assignments will be announced later. While taking an exam, the students will only be permitted to have pencils, pens, eraser, and a valid UF picture ID card. Scratch paper and scantrons will be provided. Each Exam contains 22 questions at 4 points each, which includes 2 bonus questions. The time allowed is 90 minutes. The grade on each exam will be calculated out of 80 points (which includes bonus).

The 50-minute Unit Quizzes, Quiz-Unit1 and Quiz-Unit5, are mandatory but not proctored. They are “open notes” quizzes. The Quizzes have to be taken from within MyLab and Mastering on the dates indicated on the Calendar: each Quiz opens at 12 am and closes at 11:59 pm on the same day. A Unit Quiz contains 10 multiple-choice questions at 4 points each and will be graded out of 40 points (no bonus). Review of a completed Quiz will become available after the deadline and can be accessed from MyLab gradebook by clicking on Review next to the Quiz.

The Final Exam is cumulative: it covers Units 1-5. The score for the Final Exam will appear **twice** on Canvas Gradebook, one time, as the **Final**, and, second time, as the **MakeUp** (please read section Makeup Policy on Exams in this Syllabus).

For more information on Exams and Unit Quizzes please visit the link Exam Information on the Canvas course main page.

Software Policy

Scientific calculators are required in the course.

A graphing calculator is needed for some homework problems but it can be replaced with a suitable software, such as MATLAB which is available via UF Apps.

Calculators are not allowed on Exams!

The students will have a possibility to learn the MATLAB programming environment in relation to the topics covered in the course, but **it is not required**. There will be a **Bonus MATLAB Project** offered at the beginning of the term which is worth 10 points - these points will be added to the score earned on the **Quiz-Unit1**.

For more information on the Bonus MATLAB Project, please visit the link MATLAB Project on the Canvas course main page.

Makeup Policy

MAKEUP POLICY ON ONLINE HOMEWORK AND QUIZZES: If you are not meeting the deadline for a homework assignment or Unit Quiz or missing a lecture on a **legitimate reason** (being sick, being away on the UF business, family emergency, or religious holidays), you may send an email to Dr. Williamson via **Canvas Inbox** tool either prior to the due date or within three (3) days after the due date and request an extension or make-up. **Late requests will not be accepted.**

Missing a **Unit Quiz** without a legitimate reason and making it up at a later date will result in a 5-point penalty - the request for an extension has to be sent no later than within three (3) days after the deadline for the Quiz.

MAKEUP POLICY ON EXAMS: It may be necessary to miss a Unit Exam during the term or you may not be satisfied with your grade earned on Unit Exams. For these reasons, the **Final** Exam will be counted second time as the **MakeUp** Exam: **the best 3 out of the 4 scores** on the Unit Exams 1–3 and **MakeUp** will count towards the grade on the category Unit Exams.

If you are missing a Unit Exam due to a legitimate reason (being sick, being away on the UF business, family emergency, or religious holidays), you can request to take an early make-up and save the MakeUp option of the Final. To take an early make-up, you need to send a request to Dr. Williamson **via Canvas E-mail** either prior the exam or immediately afterwards – **we will not accept any late requests**. In your request, you have to indicate on which days (M-F) and times (8 am – 4 pm) of the week following the actual exam date you are available for an early make-up: the instructor will check on the room availability and notify you on the date and time.

Missing the **Final** without a legitimate reason and making it up on a later date will result in a 10-point penalty - a request for making it up has to be sent no later than within one (1) day after the Final.

IMPORTANT NOTE: You can discuss with your Instructor a Unit Exam, Unit Quiz, HW, LC quiz, MATLAB Project **within three (3) days** and the Final Exam – **within one (1) day** upon receiving the grades if there is a grading error or any other problem. **Late requests will not be considered!**

All issues with Canvas, MyLab & Mastering and UF Apps/MATLAB have to be reported immediately in order to be eligible for an extension or a retake.

Grades

COURSE GRADE: The course grade is assigned based on the student’s performance on the following weighted categories:

36	Lecture Participation	@	63 points	11.15 %
34	On-line homework	@	102 points	18.05 %
2	Unit Quizzes	@	80 points	14.16 %
3	Unit Exams	@	240 points	42.48 %
1	Final Exam	@	<u>80 points</u>	<u>14.16 %</u>
Total:			565 points	100 %

The course grade is the grade satisfying the conditions below and **will be adhered** to:

	Minimum %		Minimum %
A	90 %	C	66 %
A-	86 %	C-	62 %
B+	82 %	D+	58 %
B	78 %	D	54 %
B-	74 %	D-	50 %
C+	70 %	E	0 %

Note: We have 0.5% round up margin towards a higher letter grade.

GRADE POSTING: All grades will be posted in a timing manner on E-Learning (Canvas) at <https://elearning.ufl.edu/>. You are advised to check regularly whether your grades are handled and recorded properly. **You should immediately report any problem with your grade to the instructor.**

Miscellaneous

Help: Please visit Resources & Help link on the Canvas Homepage for the information.

Grades: Grading will be in accord with the UF policy stated at <https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

Honor Code: “UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The [Honor Code](#) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.”

Class Attendance: “Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at: <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx> “

Accommodations for Students with Disabilities: “Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting <https://disability.ufl.edu/students/get-started/> It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.”

Online Evaluations: “Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.”

Contact information for the Counseling and Wellness Center: <https://counseling.ufl.edu/> 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

Course Content and Module Coverage

Unit 1: Review of Algebra

M 01	Polynomials & Factoring (Sect. R1, R2)
M 02	Polynomial Division & Rational Expressions (Sect. R3)
M 03	Equations: Linear, Quadratic, and Rational (Sect. R4)
M 04	Inequalities: Linear, Quadratic, and Rational (Sect. R5)
M 05	Exponents & Radical (Sect. R6, R7)

Unit 2: Functions & Mathematical Models

M 06	Slopes & Equations of Lines (Sect. 1.1)
M 07	Linear Functions & Applications; The Least Squares Line (Sect. 1.2, 1.3)
M 08	Properties of Functions (Sect. 2.1)
M 09	Quadratic Functions; Translations & Reflections (Sect. 2.2)
M 10	Polynomial and Rational Functions (Sect. 2.3)
M 11	Exponential Functions (Sect. 2.4)
M 12	Logarithmic Functions (Sect. 2.5)
M 13	Applications: Growth & Decay; Math in Finance (Sect. 2.6)

Unit 3: Limits & Derivatives

M 14	Limits (Sect. 3.1)
M 15	Continuity (Sect. 3.2)
M 16	Rates of Change & Tangent Line (Sect. 3.3, 3.4)
M 17	Definition of the Derivative & Graphical Differentiation (Sect. 3.4, 3.5)
M 18	Techniques of Differentiation (Sect. 4.1)
M 19	Derivatives of Product and Quotient (Sect. 4.2)
M 20	The Chain Rule (Sect. 4.3)
M 21	Derivatives of Exponential Functions (Sect. 4.4)
M 22	Derivatives of Logarithmic Functions (Sect. 4.5)

Unit 4: Derivatives & Applications

M 23	Increasing and Decreasing Functions (Sect. 5.1)
M 24	Relative Extrema (Sect. 5.2)
M 25	Higher Derivatives, Concavity, Second Derivative Test (Sect. 5.3)
M 26	Curve Sketching (Sect. 5.4)
M 27	Absolute Extrema & Applications (Sect. 6.1, 6.2)
M 28	Business Applications of Extrema (Sect. 6.2, 6.3)
M 29	Implicit Differentiation, Related Rates (Sect. 6.4, 6.5)
M 30	Differentials: Linear Approximation (Sect. 6.6)

Unit 5: Integration and Applications

M 31	Antiderivatives (Sect. 7.1)
M 32	Method of Substitution (Sect. 7.2)
M 33	Area & Definite Integral (Sect. 7.3)
M 34	The Fundamental Theorem of Calculus (Sect. 7.4)
M 35	The Area between Two Curves (Sect. 7.5)
M 36	Numerical Integration (Sect. 7.6)
