

Instructor: Corey Stone  
Office: Little Hall 441  
E-mail: c.stone@ufl.edu  
Office Hours (over Zoom): Tuesday (1pm - 3pm)  
Thursday (12m - 2pm)

Lecture: Period 5 (11:45 - 12:35) LIT 237  
Period 6 (12:50 - 1:40) LIT 237  
Period 7 (1:55 - 2:45) LIT 237

**Calculus with Analytic Geometry II**  
**MAC 2312 Flipped Lecture**  
4 Credit Hours  
Spring 2021

Teaching Assistants:	Office Hours	Email
Shasha Gao	TBA	shashagao@ufl.edu
Andrew Latham	TBA	ajlatham@ufl.edu
Recep Celebi	TBA	rcelebi@ufl.edu

**Prerequisites:** Appropriate score on the ALEKS placement assessment, or MAC 2311 with a C (2.0) or better.

**Course Description:** MAC 2312 is the 2nd semester in the three-semester sequence MAC 2311, MAC 2312, MAC 2313 covering the basic calculus. The course begins where MAC2311 left off at the integration techniques. This is followed by a study of infinite sequences and series, calculus of parametrized curves, polar coordinates and closed with applications of definite integrals.

**Required Materials:** There are no required textbooks for this course. We will make use of a free online textbook available at <https://openstax.org/details/books/calculus-volume-2>.

**E-Learning Canvas:** E-learning canvas, a UF course management system, is located at [elearning.ufl.edu](http://elearning.ufl.edu). Use your Gatorlink username and password to login. All course information including your grade, course homepage, syllabus, lecture outlines, office hours, test locations, mail tool, discussion forum, free help information, etc. can be accessed from this site.

You are responsible for verifying that your grades are accurate. **You have one week after a score has been posted to contact your TA if you believe there has been a recording error. There is no grade dispute at the end of the semester.**

**Please note:** Important course information is clearly communicated in this course guide, the

MAC 2312 homepage and links in Canvas, and announcements in lecture and discussion. Due to the volume of email received by the instructor and TAs, we cannot reply to each request for this well publicized information. If you cannot find your answer in the resources above, there is also a **Discussion Forum** available in Canvas. Please use this to post questions and to supply answers to your fellow students.

**E-mail:** All communication between student and instructor and between students should be respectful and professional. All official class communications will be sent only to the ufl.edu addresses. Students are responsible for acquiring, checking their email accounts regularly, and any class information sent to their ufl.edu account. Please be sure to sign your name to your e-mails.

**Lectures:** Every Monday, Wednesday, and Friday (except for school holidays and exam days), there will be a 50 minute lecture that will be streamed over Zoom. These lectures will introduce and provide examples of new course material. Attendance at these lectures is strongly encouraged, as you will have practice questions to work on during class. A recording of the lecture will be uploaded to Canvas afterwards.

**Discussion Sections:** Discussion sections meet once a week on Tuesday or Thursday over Zoom. These meetings give you a valuable opportunity for open discussion of the lecture material and assigned problems in a smaller class setting. **Attendance in discussion is required as it is where assessment of your skills will take place.** However, one period per week is generally not adequate to answer all questions. Be sure to take advantage of the opportunities outside of class for additional help.

During most discussion sections, you will take a short quiz on the material covered during the past week of class. These quizzes will take place online via Canvas. There will be 13 of these quizzes during the semester, and your lowest 3 scores will be dropped.

Your main resource is your discussion leader. He or she will be available during office hours (or by appointment) to answer your questions about the course material. Your TA is responsible for grading and recording all quiz scores. You must retain all returned papers in case of any discrepancy with your course grade. As mentioned above, **you should check Canvas regularly and consult with your TA if you have any questions about recorded grades. All grade concerns must be taken care of within one week of receiving the score.** If you have concerns about your discussion class which cannot be handled by your TA please contact your instructor.

**Tests:** Mid-term exam dates are as follows:

- Friday, February 19th
- Wednesday, March 17th

- Friday, April 16th
- Makeup, April 21st

There will be three online mid-terms throughout the semester. All of the questions will be either multiple choice or fill in the blank.

These exams will take place in the evening, from 8pm to 10pm. You must have the Honorlock proctoring system enabled during the entirety of the exam. These exams will be closed book/notes, and you cannot use any online resources to help you. You are only permitted to have blank scratch paper and something to write with, along with your UFID during the tests.

**FINAL EXAM:** The FINAL EXAM will be on Monday, April 26th, from 12:30pm to 2:30pm. The same proctoring guidelines apply for the final, so be sure that Honorlock is enabled and that you only have scratch paper, your UFID, and something to write with in the room. Make a note of the exam date now and please inform any interested parties (e.g. your parents) who may be making plans for you around that time (such as purchasing plane tickets, travelling, etc.).

**Class Participation:** Attendance in class both in lecture and discussion section is highly recommended, and is part of your grade for the class. Students who come to class and participate are more likely to do well in the course.

Further, following university policy, you may expect a penalty (additional lost points) for attending fewer than 75% of your classes.

**Xronos Homework:** After a topic has been completed in class, a new online homework assignment will be posted in the Assignments tab on Canvas, using a system called Xronos. You have until the posted due date to complete the assignment. There will be 24 assignments, and your lowest two homework grades will be dropped.

**Make-up Policy:** All make-up work must be arranged with your instructor.

- **Exam Conflicts - UF during Term Assembly Exam Policy:** ([catalog.ufl.edu/ugrad/current/regulation](http://catalog.ufl.edu/ugrad/current/regulation))  
 “Exams may be held Monday - Friday from 8:20-10:10PM (periods E2-E3) for the fall and spring terms. If other classes are scheduled during an exam time, instructors must provide make-up class work for students who miss class because of an assembly exam. If two exams are scheduled at the same time, assembly exams take priority over time-of-class exams. When two assembly exams conflict, the higher course number takes priority. Instructors giving make-up exams will make the necessary adjustments.”  
 If MAC 2312 is the lower course number, students must inform their instructor in person at least ONE WEEK in advance of the exam date so that appropriate accommodations can be made. Otherwise it may not be possible to reschedule.
- **Make-up Exams** If you are participating in a UF sponsored event or religious observance, you may make up an exam only if you make arrangements with your instructor at least ONE

WEEK PRIOR to the event. You must present documentation of a UF sponsored event. **If illness or other extenuating circumstances cause you to miss an exam, contact your instructor (no later than 24 hours after the exam) by email. Then, as soon as possible after you return to campus, bring the appropriate documentation to him in Little Hall during office hours. You will be allowed to sign up to take a makeup exam at the end of the semester on April 25th**

- **Make-up class participation points:** There are no make-ups. If you have a legitimate excuse for missing these assignments, such as a UF sponsored event, illness, etc, let the instructor know and the missing assignments will not count towards your grade.

**Incomplete:** Students who are currently passing a course but are unable to complete the course because of illness or emergency may be granted an incomplete grade of I which will allow the student to complete the course within the first two weeks of the following semester. See the policy on <http://www.math.ufl.edu/fac/incompletes.html>. If you meet the criteria, you must see your instructor before finals week to be considered for an I. An I only allows you to make up your incomplete work, not redo your work.

**Grading:** Your course grade will be determined by a weighted sum of the following items (weights are below)

- Class Participation: 10%
- Discussion Quizzes: 10%
- Xronos Homework: 10%
- Midterms (3 mid-term exams): 45% (15% per exam)
- Final Exam: 25%

### Grading Scale

90-100 A	87-90 A-	84-87 B+	80-84 B
77-80 B-	74-77 C+	67-74 C	64-67 C-*
60-64 D+	57-60 D	54-57 D-	0-54 E

**\*Note** A grade of C- DOES NOT give Gordon Rule or General Education credit!  
For those take the S-U option: 67-100 S 0-67 U

Approval of the S-U option must be obtained from your instructor. The deadline for filing an application with the Registrar and further restrictions on the S-U option are given in the

Undergraduate Catalog. For a complete explanation of current policies for assigning grade points, refer to the UF undergraduate catalog: [catalog.ufl.edu/ugrad/regulations/info/grades.aspx](http://catalog.ufl.edu/ugrad/regulations/info/grades.aspx)

**NOTE: We will not review disputed points at the end of the semester. All grade concerns must be settled within one week of the return of the paper.**

**Free Help** In addition to attending your discussion section regularly and visiting your discussion leader, lecture, or the course coordinator, during their office hours, the following aids are available.

- The Math Help Center in Little 215 is open for drop-in assistance with homework Monday through Friday from 9:30 to 4:00. It is staffed by mathematics graduate students and undergraduate assistants. Please note that this space is not designed for intense one-on-one tutoring, but rather as a resource for quick questions and explanations. You should not expect the staff to help you if you have not at least begun your homework and have specific questions. Moreover, they absolutely will not assist you with quizzes or any other such work.
- The Teaching Center Math Lab, located in SE Broward Hall, is a tutorial service staffed by trained math and science students to provide help with your calculus questions and homework. Tutors will be glad to provide guidance on specific problems after you have attempted them on your own. You may want to attend different hours to find tutors with whom you feel most comfortable. You can also request free one-on-one tutoring. The math lab also offers a more structured tutoring program for MAC 2312, called **supplemental instruction**. A tutor, assigned specifically to MAC 2312, provides weekly help sessions. More details will be provided in lecture. In addition, the Broward teaching center tutors hold reviews on the evenings before each exam. They also provide videos of review and sample test problems. Check the webpage, [teachingcenter.ufl.edu](http://teachingcenter.ufl.edu), for a map of the location, tutoring hours, and test review dates and locations. **All students are encouraged to use the teaching center.**
- Office of Academic Support offers free one-on-one and small group tutoring sessions to UF students. See <http://oas.aa.ufl.edu/tutoring.aspx> for details.
- Textbooks and solutions manuals are located at reserve desks at Marston Science Library.
- Private Tutors: If after availing yourself of these aids, you feel you need more help, you may obtain a list of qualified tutors for hire at [www.math.ufl.edu](http://www.math.ufl.edu). Search "tutors".
- The Counseling Center has some informative information on developing math confidence. Go to

<http://www.counseling.ufl.edu/cwc/DevelopingMath-Confidence.aspx>

for information on math confidence and information on joining the Academic Confidence Group.

**Calculators** Calculators are **NOT** permitted on exams and discussion assignments. Please avoid using a calculator on homework as it will not help you prepare for the exams.

**Cell Phones** Cell phones must be turned off (not on vibrate) before coming to class. Use (defined as having one physically in your hand) of a cell phone during a test or quiz will be considered contact with another person and will be viewed as a form of academic dishonesty because I cannot be assured in such a circumstance that you have not taken a picture of the test/quiz or sent a text message to someone. Thus, do not touch your cell phone during a test or quiz. **Wait until after you have left the room and are finished with the test/quiz to use it.**

**Music Players** iPods and other music players are not to be used during class (including while taking tests and quizzes). Having one out during a test or quiz will result in a grade of zero and possible disciplinary action.

**Students with Learning Disabilities** Students requesting class and exam accommodations must first register with the Dean of Students Office Disability Resource Center (DRC), [www.dso.ufl.edu/drc/](http://www.dso.ufl.edu/drc/). That office will provide a documentation letter via email to your instructor. This must be done as early as possible in the semester, **at least one week before the first exam**, so there is adequate time to make proper accommodations.

**Zoom:** Due to the COVID-19 pandemic, all class meetings will take place using Zoom. Please ensure that you have access to a computer that can run Zoom, and a stable internet connection. If you have difficulty obtaining one or both of these, please contact your instructor.

While in a Zoom meeting, please ensure that your microphone is muted, unless you are asking/answering a question. If you would like to ask/answer a question during class, use the "raise hand" feature, and the instructor will get to you as soon as they can. There will also be a text chat box available in Zoom if you are unable or do not want to speak over voice chat.

Our class sessions may be audio-visually recorded for students in the class to refer back and for enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate verbally are agreeing to have their voices recorded.

If you are not willing to consent to have your voice recorded during class, you will need to keep

your mute button activated and communicate exclusively using the "chat" feature, which allows students to type questions and comments live. The chat will not be recorded or shared.

As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

**Academic Honesty Guidelines** All students are required to abide by the Academic Honesty Guidelines which have been accepted by the University. The academic community of students and faculty at the University of Florida strives to develop, sustain and protect an environment of honesty, trust, and respect. Students are expected to pursue knowledge with integrity. Exhibiting honesty in academic pursuits and reporting violations of the Academic Honesty Guidelines will encourage others to act with integrity. Violations of the Academic Honesty Guidelines shall result in judicial action and a student being subject to the sanctions in paragraph XIV of the Student Code of Conduct. The conduct set forth hereinafter constitutes a violation of the Academic Honesty Guidelines (University of Florida Rule 6C1-4.017).

The Mathematics Department expects you to follow the Student Honor Code. We are bound by university policy to report any instance of suspected cheating to the proper authorities. You may find the Student Honor Code and read more about student rights and responsibilities concerning academic honesty at the link [www.dso.ufl.edu/sccr/](http://www.dso.ufl.edu/sccr/).

In addition, we remind you that lectures given in this class are the property of the University/faculty member and may not be taped without prior permission from the instructor and may not be used for any commercial purpose. Students found to be in violation may be subject to discipline under the Student Conduct Code.

Note: Information in this syllabus is subject to change. Any changes will be clearly announced in class or through e-mail.
