Lecture: Period 3, 9:35am - 10:25am MWF
LEIGH 104

Text *Graphs and Digraphs, 7th edition* by Chartrand, Jordon, Vatter and Zhang.

Course Content Theory and applications of graphs including connectivity, planarity, coloration, algorithms, and network flow.

Homework We will have seven homework assignments. They will be due on Wednesdays during weeks when we do not have a quiz.

Quizzes We will have six quizzes. They will focus on the most recent material, but math courses are necessarily cumulative so later quizzes will use techniques developed earlier in the course. The quizzes will be on the following dates:

January 29, February 12, February 26, March 12, April 2, April 16

Grading Each homework assignment is worth 5% and each quiz is worth 15% of the course grade. The lowest score in each category will be dropped.

The final grades will be curved, but will be no tougher than the 10-point scale: 90%-100% will be some form of A, 80-90% will be at least some form of B, etc. After the third quiz, you will receive a projected grade based on your work to date.

If you have a disagreement with the grading of one of your solutions, I ask that you submit a written request for reconsideration within one week of receiving your grade.

Grading will be in accord with the UF policy stated at <https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>.

Honor code IUF students are bound by The Honor Pledge which states, We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: On my honor, I have neither given nor received unauthorized aid in doing this assignment. The Honor Code specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor.

Attendance Attendance will not be monitored. Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at: <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.

Accomodations for students with disabilities	Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, https://www.dso.ufl.edu/drc/) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.
Online Evaluations	Students are expected to provide feedback on the quality of instruction in this course by completing online evaluations at https://evaluations.ufl.edu . Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at https://evaluations.ufl.edu/results/ .
Students with Learning Disabilities	Students requesting class and exam accommodations must first register with the Dean of Students Office Disability Resource Center (DRC), www.dso.ufl.edu/drc/ . That office will provide a documentation letter via email to your instructor. This must be done as early as possible in the semester, at least one week before the first exam , so there is adequate time to make proper accommodations.
Complaints	The official UF policy for filing a complaint about the course may be found at https://www.dso.ufl.edu/documents/UF_Complaints_policy.pdf .
U Matter, We Care	Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.
