

**Abstract Algebra 1**  
**MAS 4301**  
**SUMMER C 2024**

---

**Classroom:** LIT207

**Meeting Times:** MWF2 (9:30am-10:35am)

**Instructor:** Dr. Konstantina Christododouloupoulou

**Office Phone:** (352) 294-2350

**Office Location:** LIT 365

**Email:** kchristod@ufl.edu

**Office Hours:** M: noon-1pm, W: 11am-noon, F: 11:30am-12:30pm, or by appointment.

**Open Door Policy:** You are welcome to drop by to discuss any aspect of the course, anytime.

**All course materials will be posted in e-Learning Canvas**

---

**All course materials will be posted in e-Learning Canvas** <https://elearning.ufl.edu/>

**Required Text:** *Contemporary Abstract Algebra*, by Joseph Gallian, 9th edition. We will cover most of Chapters 0-11, plus additional material, time permitting.

**Course Content and Objectives:** MAS 4301 is a first course in abstract algebra. In this course we will examine basic algebraic structures and concepts such as abstract groups, symmetric groups, normal subgroups, quotient groups, etc. This course is particularly useful for future K-12 math teachers since one of the objectives of the course is to understand why the number systems and algebra operate as they do, where the standard arithmetic operations come from, and how we can modify them. We will work through many new definitions, concepts, and examples, and we will study many theorems and proofs. You will also write a lot of proofs yourselves in homework assignments and exams.

**Reading:** A tentative course calendar (subject to revision during the semester) is available at the end of the syllabus and also in CANVAS. There you can find which sections will be covered during each lecture. *It is expected that you have read the relevant textbook sections before each lecture, so that you will be able to better grasp the material presented.*

**Office Hours:** I encourage you to take advantage of my office hours and my **open door** policy. You are welcome to drop by my office to talk about the course anytime I am in my office and my door is open. In addition, I will hold regular office hours for your convenience. If you cannot make my posted hours I will also be happy to set a meeting time that is convenient for the both of us.

**Course Web Page:** I will update Canvas regularly with class announcements, homework assignments, and additional materials. All grades are posted in the Canvas Gradebook. You are responsible for verifying that those grades are accurate. **You have one week after a score has been posted to contact me to resolve any grade concerns. We will not consider any grading disputes nor make any grade adjustments at the end of the semester.**

Please review the UF Resources and Policies for available technical assistance, resources and UF policies.

**Grading:**

<b>Homework</b>	25%
<b>Three Exams</b>	75% (25% each)

The following grading scale applies.

A	$\geq 90\%$	C	$\geq 70\%$
A-	$\geq 87\%$	C-	$\geq 67\%$
B+	$\geq 84\%$	D+	$\geq 64\%$
B	$\geq 80\%$	D	$\geq 60\%$
B-	$\geq 77\%$	D-	$\geq 56\%$
C+	$\geq 74\%$	E	$< 56\%$

**Grades will not be rounded and there will not be any extra credit assignments to raise your grade.**

**Homework:** Homework assignments will consist of problems to be submitted for grading and a list of recommended problems. I expect all homework solutions to be written in full sentences and to be grammatically correct.

You may work with your peers to prepare problems but you must write up solutions individually. Do not turn in Xerox copies of each other's homework or copied from an online resource. Late homework submissions will only be accepted if there is an acceptable excuse consistent with university policies <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx> and appropriate documentation is provided in a timely fashion.

**In addition, I expect you to work on the recommended problems for each lecture and ask questions in office hours, in class, etc., if you need help.**

**Using the Web:** Please refrain from searching for proofs on the internet or using someone's notes from a previous semester. Your job in this course is to write proofs in algebra, not learn how to do a web search. It is very obvious to me when you have a proof that you did not write yourself, and this will not help you succeed in the course. It is also a violation of the UF Honor Code to present other people's work as your own and all such behaviors will be reported to SCCR. If you are having trouble with a proof ask me for help.

**Exams:** Two mid-term exams and a final exam are scheduled for this course. All exams will be in class (9:30-10:35am) in our regular classroom. The mid-term exams are scheduled for Wednesday, June 12, and Wednesday, July 17, and the final exam is scheduled for Friday, August 9. **The exams cannot be rescheduled unless you meet the University requirements; see <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.** Absolutely no collaboration on exams is allowed.

**Submitted Work Expectations:** Submitted assignments should be neat, organized, and clearly presented. Papers not meeting these standards may have the scores reduced or may not be accepted for grading.

**Grading Rubric:** Each solution of homework or exam questions will be graded on the following scale (applied to the points assigned to the question):

5	Correct mathematical solution and well written.
4	Small errors such as incomplete sentences, imprecise definitions, or overlooking trivial cases.
3	Contains an outline of a correct solution and several steps toward this solution, but the writing is unclear or there are gaps in the solution.
2	Some original steps toward a correct solution but with significant mathematical errors.
1	No original steps toward a correct solution.
0	Submitted work not relevant to the question or no work submitted.

**Make-up policies:** Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at: <https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/>

Make-up assignments will be allowed in the following cases:

- In case of illness, upon receipt of a doctor's note or equivalent, or by following the procedure outlined here: <https://care.dso.ufl.edu/instructor-notifications>.
- In case of religious holidays, by informing me via e-mail ahead of time.
- In case of military duty, jury duty, participation in academic conferences, or participation in official university or UAA events, by providing appropriate evidence ahead of time.
- In case of family emergencies or other extenuating circumstances, by following the procedure outlined here: <https://care.dso.ufl.edu/instructor-notifications>.

In all other cases, or if you are unsure, please e-mail me as soon as feasible. **Absences are generally not excused for non-emergency travel, vacation, and other personal schedule conflicts.** Students are still responsible for submitting assignments on time unless an extension has been requested via e-mail and approved by the instructor prior to the deadline. In case of true documented emergencies, the instructor will waive this requirement. You can and should always strive to submit your work early to avoid last minute issues that might occur if you wait until the last minute before the deadline to submit.

**Technical difficulties are not generally an excuse for missing an assessment; students should have contingency plans in case any such issues arise.**

**Incomplete:** A student who has completed a major portion of the course with a passing grade but is unable to complete the final exam or other course requirements due to illness or emergency may be granted an incomplete, indicated by a grade of "I". This allows the student to complete the course within the first six weeks of the following semester. You must contact me before the final exam to sign an incomplete grade contract (<https://math.ufl.edu/wp-content/uploads/sites/124/incomplete-grade-contract.pdf>) and you must provide documentation of the extenuating circumstances preventing you from taking the final exam. The grade of "I" is never used to avoid an undesirable grade, and does not allow a student to redo work already graded or to retake the course. See the official policy at <http://www.math.ufl.edu/department/incomplete-grades/>.

**Students with Disabilities:** Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center. Click here to get started with the Disability Resource Center. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

**Academic Honesty:** UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code." On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment." The Honor Code (<https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor in this class.

**Online Course Evaluation:** Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.ua.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students here: <https://gatorevals.ua.ufl.edu/public-results/>.

### **Campus Resources:**

#### **Health and Wellness**

*U Matter, We Care:* If you or someone you know is in distress, please contact [umatter@ufl.edu](mailto:umatter@ufl.edu), 352-392-1575, or visit <https://umatter.ufl.edu/> to refer or report a concern and a team member will reach out to the student in distress.

*Counseling and Wellness Center:* Visit <https://counseling.ufl.edu/> or call 352-392-1575 for information on crisis services as well as non-crisis services.

*Student Health Care Center:* Call 352-392-1161 for 24/7 information to help you find the care you need, or visit <https://shcc.ufl.edu/>.

#### **Academic Resources**

*E-learning technical support:* Contact the UF Computing Help Desk: <https://it.ufl.edu/helpdesk/>

*Career Connections Center:* Reitz Union Suite 1300, 352-392-1601. Career assistance and counseling services.

*Library Support:* Various ways to receive assistance with respect to using the libraries or finding resources: <https://uflib.ufl.edu/using-the-libraries/>

**MAS 4301 Calendar, Summer C 2024**

**Exam 1-Wednesday, June 12 in class**

**Exam 2-Wednesday, July 17 in class**

**Final Exam-Friday, August 9 in class**

Monday	Wednesday	Friday
May 13 Ch. 0 Preliminaries	15 Ch. 0 Preliminaries	17 Ch. 0 Preliminaries
May 20 Ch. 1 Introduction to groups	22 Ch.2 Definition and Examples of Groups	24 Ch. 2 Elementary properties of Groups
May 27 Memorial Day No Class	29 Ch. 3 Order and Subgroup Tests	31 Ch.3 Examples of Subgroups
June 3 Ch. 4 Cyclic Groups	5 Ch. 4 Cyclic Groups	7 Ch. 4 Cyclic Groups
June 10 Ch. 5 Permutation Groups	12 <b>Exam 1</b>	14 Ch.5 Permutation Groups
June 17 Ch. 6 Isomorphisms	19 Juneteenth Holiday No Class	21 Ch. 6 Isomorphisms
24 HAPPY	26 SUMMER	28 BREAK
July 1 Ch. 7 Cosets and Lagrange's Theorem	3 Ch. 7 Cosets and Lagrange's Theorem	5 Ch. 7 Cosets and Lagrange's Theorem/Catch-up
July 8 Ch. 8 Direct Products	10 Ch. 8 Direct Products	12 Ch. 9 Normal Subgroups and Factor Groups
July 15 Catch-up/Review	17 <b>Exam 2</b>	19 Ch. 9 Normal Subgroups and Factor Groups
July 22 Ch. 10 Group Homomorphisms	24 Ch. 10 Group Homomorphisms	26 Ch. 11 Fundamental Theorem of Finite Abelian Groups
July 29 Ch. 11 Fundamental Theorem of Finite Abelian Groups	31 Catch-up/Ch. 12 Introduction to Rings (if time)	Aug 2 Catch-up/Ch. 12 Introduction to Rings (if time)
Aug. 5 Ch. 13 Integral Domains (if time)	7 Catch-up/Review	9 <b>Final Exam</b>
