## MGF1107 Spring 2022

Students in this class should use the syllabus materials on Canvas. The materials on Canvas include more detailed information on using the required software in this class and a more detailed weekly schedule. The Canvas site will go live prior to the start of the term on 1/5.

### MGF1107 Spring 2022 Syllabus

This document is divided into two main sections. The first deals with the various policies, both UF and individual, which govern the course. The second is a list of the assignments in this class along with their due dates.

#### Course Summary

MGF 1107, Mathematics for Liberal Arts 2 is a general education/math course which is not intended to prepare you for Precalculus or Calculus. Instead, this course emphasizes mathematical reasoning and the connections between mathematics and the liberal arts. This course qualifies for both GenEd and Gordon Rule credits.

The main goal of this class is for you all to have an authentic mathematical experience. Coming into this class, it might not even be clear what it is that mathematicians do, and we want to change that! Doing mathematics is so much more than memorizing and applying formulas. In this class, sometimes we will play with ideas just to see where it leads us. Sometimes we will grapple with difficult problems to uncover a new (to us) truth. We may discover a formula or two in our exploration and use them to further our understanding, but we will not be memorizing and plugging into formulas as a significant component of the course.

#### Communication Information

**Instructor Name:** Dr. Ross Ptacek

**Office Location:** LIT 442 (by appointment only)

**Phone and Email:** (352) 294-2350 [department], [rptacek@ufl.edu](mailto:rptacek@ufl.edu)

**Preferred form of Contact:** Please use Canvas messages or email. For grade inquiries you should use

Canvas messages.

**Office Hours:** MF 10:00–11:00 AM EST via Zoom, Th  
11:45 – 12:35

Communications: I primarily will communicate with the entire class through Canvas announcements. Otherwise, communication will come to your ufl.edu email address. If you send an email, you can generally assume a same business day response and no longer than two business days. If you don't get a response by then, please resend your message.

Class Comportment: There is a significant discussion component to this class. Treat one another with respect. Please report anything that makes you feel uncomfortable, but do not take action yourself. We are committed to diversity and inclusion of all students in this course. We acknowledge, respect, and value the diverse nature, background and perspective of students and believe that it furthers academic achievements. In the event that we have class over Zoom Please treat our synchronous Zoom classes as you would a live class. Dress as though you are in the classroom.

## Course Materials

- Required Reading and Other Course Materials: There is no textbook for this course. Notes will be distributed for every section via Goformative (described below.)
- Required Technology:
  - **Zoom:** We will use Zoom for office hours, and optionally for course meetings. UF's website for Zoom is <https://video.ufl.edu/conferencing/zoom/> (Links to an external site.). As a student you will be clicking Zoom links from within Canvas and this should all work automatically.
  - **Goformative ([www.goformative.com](http://www.goformative.com) (Links to an external site.)):** Goformative is an online system for facilitating both classwork and homework. You will need to make a free account by going to <https://goformative.com/join> and entering the course code 3XNMTJ. After doing so you will be prompted to enter your email address and password. You must **use your ufl email address** when signing up.
  - **Ziteboard (<https://ziteboard.com/>):** Ziteboard is an online whiteboard service that we will be using for collaboration this term. This is mainly for those who intend to attend the course virtually. Again, you will need to make a free account in order to use the whiteboards and participate in the group activities. Just click on the "Log In" link from the top right on <https://ziteboard.com/> and you will be prompted for an email address and password. It's nice to use your ufl email when signing up for this but it is not required.
- Materials and Supplies Fee: n/a.

## Class Meetings

This term the university is returning to traditional classroom instruction. However, many of us are still apprehensive about potential covid exposure in the classroom. This is especially true in a class where we are working in small groups. The group work and discussion are an essential component of the class, but I want everyone to feel safe. The following procedures are in place to promote safety in the classroom.

- Following recent guidance from the CDC, all students are expected to be masked inside of the classroom. I will bring a small supply of surgical masks with me to class.
- Unmasked students will by default be grouped with other unmasked students, but after the first few weeks of class groups will be self-selected. We will keep the groups as permanent as possible to minimize contact.
- Students who still feel uncomfortable in the classroom environment have the option to attend class virtually. This class was run successfully as HyFlex in the spring, and we can do it again in the fall.

Our meetings are almost entirely devoted to class discussion and group activities. Regardless of whether a student is attending virtually or not, Goformative will be used to facilitate the group assignment, so students are required to bring a device to class. Students attending virtually will additionally need to use Zoom and Ziteboard.

## Course Format

This class is best described as a “flipped” class. Almost every class meeting will be preceded by a short assignment to introduce new concepts and terminology. These assignments are typically accompanied by a video to help explain difficult concepts. As a result, our class meetings do not involve any significant lecture portion. We will spend class time either engaging in a discussion or working in small groups on challenging problems and sharing solutions with the class. There will be weekly (usually) in-class diagnostic quizzes to make sure that nobody is falling behind. Topics from class will be both reinforced and expanded upon in the homework. Lastly, there is a final project which will be worked on over the course of the term. All of these assignments are explained in more detail in the [List of Graded Work](#).

Notably, there are no exams or other high pressure timed assignments in this class. Instead, there is a type of homework exercise, called a mastery assignment, which fills the role of major during-term assessments. Mastery problems are difficult, open-ended problems in which student and teacher engage in **dialogue** to guide the student toward solution. These are discussed in more detail in the [List of Graded Work](#).

Contact Hours: “Contact Hours” refers to the hours per week in which students are in contact with the instructor, excluding office hours or other voluntary contact. The number of contact hours in this course equals the number of credits the course offers.

Statement on Workload: As a Carnegie I, research-intensive university, UF is required by federal law to assign **at least 2 hours of work outside of class for every contact hour**. Work done in these hours may include reading/viewing assigned material and

doing explicitly assigned individual or group work, as well as reviewing notes from class, synthesizing information in advance of exams or papers, and other self-determined study tasks.

In this class this works out to 9+ hours per week as follows.

- 3 hours in our T/R class meetings (contact hours)
- 2 hours of pre-classwork assignments (1 each for T/R class)
- 4+ hours spent on homework, the final project, or other studying

If you find yourself putting in more than 9 hours per week but still struggling, please reach out so that we can work out a plan to get you back on track.

Statement Regarding Course Recording: Our class sessions may be audio visually recorded for students in the class to refer back to and for use of enrolled students who are unable to attend live. Students who participate with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate verbally are agreeing to have their voices recorded. If you are unwilling to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the “chat” feature, which allows students to type questions and comments live. The chat will not be recorded or shared.

With the passing of HB 233, the rules for students recording class need to be carefully explained. Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part,

any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

## Grading Policies

There are 1000 total points in this class, broken down as follows.

Pre-Classwork Assignments (20 assignments, 5 pts each)	100 points
Classwork (est 18, 5 pts each)	90 points
Lvl Homework (est 10, 10 pts each)	100 points
Lv2 Homework (est 8, 20 pts each)	160 points
Lv3 Homework (Mastery) (est 4, 50 pts each)	200 points
Quizzes (est 10 of 14, 10 pts each)	100 points
Final Project (25 pts paper, 125 pts visual aid)	250 points
<b>Total</b>	<b>1000 points</b>

A full description of these assignment categories are in the [List of Graded Work](#). Final grades are assigned on a 125 point scale:

- 1000-875 is an A
- 874-750 is a B
- 749 – 625 is a C
- 624 – 500 is a D
- Anything lower is an E

A C or higher is needed to meet degree requirements. Plus and minus grades are awarded based on the strength of the final project, Lv3 homework, class participation, and overall growth over the course of the term. Otherwise, the grading scale is strictly adhered to. Grading in this class is consistent with the UF polices at <https://catalog.ufl.edu/UGRD/academic-regulations/grades-grading-policies/>. You can also find UF's grade point policy at this link.

Mastery Grades: The Level 3 homework is graded for mastery. This means that only

essentially correct solutions will receive any points. There is a well-defined review and resubmission process by which students will refine their answers with instructor guidance. Please consult the [List of Graded Work](#) for a full description.

Policy on Late and Make-up Work: Requirements for class attendance and make-ups, assignments, and other work in this course are consistent with university policies that can be found

at: <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.

Any makeup (this includes extension) request **must be made prior to the deadline of the assignment** unless an emergency prevents communication. Makeups are only approved in the case of official UF business, religious observances, or personal emergency. In most cases, documentation is required to verify the reason for absence. Makeups may be denied if the reason for absence was known about well before it being communicated.

Grade Return Timing: Most assignments will be graded automatically by the Goformative software and will be returned almost as soon as the deadline passes. Some questions require manual grading, so you may see some things marked wrong that you know are right. Please wait a few days before reporting these grading errors. Mastery assignments are like small projects and usually take a week or so to grade properly. So these may linger as zeros until they are graded.

Grade Disputes: Students are strongly encouraged to ask questions about potential mistakes in graded assignments. Discussing why something was marked as incorrect is a great way to learn, and this discussion is a fundamental part of mastery assignments as outlined above. However, these discussions should occur as assignments are returned, not as an end-of-term attempt to scrape together a few extra points. In general, students have **one week** after a grade is returned to review the assignment and dispute a grade. Discussion after this window is still encouraged, but it will not result in an improved grade. Moreover, end of term point negotiations will be **penalized with a minus grade**. For example a student with 874 points (in the B range) who asks for grade leniency at the end of the term will receive a B- instead of what would certainly have been a B+. So please discuss solutions with us, but do not haggle for every individual point and, moreover, don't do it on the last days of the semester.

## Honor Code

UF students are bound by The Honor Pledge which states, *"We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment."* The Honor Code ([sccr.dso.ufl.edu/process/student-conduct-code/](https://sccr.dso.ufl.edu/process/student-conduct-code/)) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

I believe that my strength as an educator is not in showing students how to solve problems but in being able to engage in the Socratic method with students. I want to ask the questions that kickstart your own thinking. Because of this, the use of a tutor is **strongly discouraged** and in most cases will be considered an **honor code violation**. The point is to think independently, not to present someone else's thoughts. Both skills are important, but in this class we focus on the former. In this class collaboration with your peers is encouraged, but the final submitted product must be your own work. In general, if a student cannot adequately explain their answers to the point that the instructor does not believe that it is the student's own work, it will be treated as though the student copied the answers, an honor code violation.

Any violation of the honor code will result in a final grade of 0 on the corresponding assignment with no further opportunities for resubmission. This is especially true for plagiarism on the final project.

## Additional UF Policies

This course is aligned with the following UF policies

- **Accommodation for Student with Disabilities:** Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting <https://disability.ufl.edu/students/get-started/>. This class supports the needs of different learners; it is important for students to share their accommodation letter with their instructor and discuss their access needs as early as possible in the semester.
- **Statement Regarding Evaluations:** Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available from [the Gatorevals website](#). Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via [the evaluation system](#). Summaries of course evaluation results are available to students at the [public results website](#).

## UF Student Resources

- **UF Police:** The UF police are together for a safe campus. 392-1111 (or 9-1-1 for emergencies) and <https://police.ufl.edu/>.
- **Career Connections Center:** [Career Connections Center](#) (352-392-1601 | [CareerCenterMarketing@ufsa.ufl.edu](mailto:CareerCenterMarketing@ufsa.ufl.edu)) connects job seekers with employers and offers guidance to enrich your collegiate experience and prepare you for life after graduation.
- **Counseling and Wellness Center:** [Counseling and Wellness Center](#) (352-392-1575) provides counseling and support as well as crisis and wellness services including a [variety of workshops](#) throughout the semester (e.g., Yappy Hour, Relaxation and Resilience).

- **Dean of Students Office:** [Dean of Students Office](#) (352-392-1261) provides a variety of services to students and families, including [Field and Fork](#) (UF's food pantry) and [New Student and Family programs](#)
- **Disability Resource Center:** [Disability Resource Center](#) ([DRCaccessUF@ufsa.ufl.edu](mailto:DRCaccessUF@ufsa.ufl.edu) | 352-392-8565) helps to provide an accessible learning environment for all by providing support services and facilitating accommodations, which may vary from course to course. Once registered with DRC, students will receive an accommodation letter that must be presented to the instructor when requesting accommodations. Students should follow this procedure as early as possible in the semester.
- **Multicultural and Diversity Affairs:** [Multicultural and Diversity Affairs](#) (352-294-7850) celebrates and empowers diverse communities and advocates for an inclusive campus.
- **Office of Student Veteran Services:** [Office of Student Veteran Services](#) (352-294-2948 | [vacounselor@ufl.edu](mailto:vacounselor@ufl.edu)) assists student military veterans with access to benefits.
- **ONE.UF:** [ONE.UF](#) is the home of all the student self-service applications, including access to:
  - [Advising](#)
  - [Bursar](#) (352-392-0181)
  - [Financial Aid](#) (352-392-1275)
  - [Registrar](#) (352-392-1374)
- **Official Sources of Rules and Regulations:** The official source of rules and regulations for UF students is the [Undergraduate Catalog](#) and [Graduate Catalog](#). Quick links to other information have also been provided below.
  - [Student Handbook](#)
  - [Student Responsibilities](#), including academic honesty and student conduct code
  - [e-Learning Supported Services Policies](#) includes links to relevant policies including Acceptable Use, Privacy, and many more
  - [Accessibility](#), including the Electronic Information Technology Accessibility Policy and ADA Compliance
  - [Student Computing Requirements](#), including minimum and recommended technology requirements and competencies

## Weekly Schedule

A more detailed weekly schedule can be found by viewing the Modules page on Canvas.

- Week 1 (1/5 – 1/7): Introduction to the course. Drop/Add through 1/11.
- Week 2 (1/10 – 1/14): Proof. Graph Theory (intro). Quiz 1.
- Week 3 (1/18 – 1/21): Graph Theory (coloring, counting) Quiz 2.
- Week 4 (1/24 – 1/28): Graph Theorem (trees). Mastery work. Quiz 3.
- Week 5 (1/31 – 2/4): Mastery work. Topology (intro). Quiz 4.

- Week 6 (2/7 – 2/11): Topology (surfaces, Euler characteristic). Quiz 5.
- Week 7 (2/14 – 2/18): Topology (projections). Mastery work. Quiz 6.
- Week 8 (2/21 – 2/25): Mastery work. Game Theory (game trees). Quiz 7.
- Week 9 (2/28 – 3/4): Game Theory (symmetry, solutions). Project topics. Quiz 8.
- Week 10 (3/7 – 3/11): Spring Break.
- Week 11 (3/14 – 3/18): Game Theory (N/P positions). Mastery work. Quiz 9.
- Week 11 (3/21 – 3/25): Mastery work. Probability (process trees). Quiz 10.
- Week 12 (3/28 – 4/1): Probability (counting, expectation). Project Drafts. Quiz 11.
- Week 13 (4/4 – 4/8): Probability (conditional probability). Strategic games (dominance). Quiz 12.
- Week 14 (4/11 – 4/15): Strategic games (Prisoner's dilemma, Nash equilibrium). Quiz 13.
- Week 15 (4/18 – 4/20): Strategic games (tragedy of the commons). Quiz 14.  
Final Projects Due.

## List of Graded Work

### Final Project

The final project is an investigation into a famous mathematical result or mathematician. Most topic choices are contemporary to show how math has continued progressing. The project consists of two parts: a short research paper and an accompanying visual aid. A full description of the project parameters, including a list of acceptable topics, can be found on the [Final Project assignment page](#) on Canvas.

- **Submit:** Canvas at [Final Project](#) (paper and visual aid)
- **Value:** 250 points (125 paper, 125 visual aid)

### Homework

The primary role of homework in this class is to reinforce but also, and more importantly, extend the topics in class or apply those topics in novel ways. Occasionally, the homework will introduce additional, optional topics that are related to the in-class topics. The optional topics provide students have some freedom to pick which homework exercises they wish to complete, especially with the more challenging assignments.

All homework is classified as level 1, 2, or 3. The difficulty scales along with the level, but at the same time fewer of the higher level assignments are required for full credit. Most homework comes as a set or a level 1, 2 and 3 assignment, but some are standalone assignments. Sets of homework must be completed in order. That is, you can not do the level 2 or 3 if you do not complete the level 1.

## Level 1 Homework

- The level 1 homework is designed to either reinforce one of the core topics covered in class or to lay the groundwork for one of the optional topics.
- These assignments should be straightforward given the treatment of the material in class. A good rule of thumb is that a level one assignment should take no longer than one hour to complete. If you find an assignment taking longer than this, then please **seek assistance during office hours**.
- Instructors are willing to discuss any aspect of a level 1 assignment, up to and including whether an answer is correct or not. However, the student must have made an attempt on the question prior to asking for help.
- A level 1 homework will typically be due 3-5 days after the corresponding class period in which the material was covered.
- Each level 1 homework assignment is worth 10 points, but only your best ten assignments count toward your grade.
- **Submit:** Goformative (link varies per assignment)
- **Value:** 10 points x 10 assignments = 100 points

## Level 2 Homework

- The level 2 homework goes slightly beyond the fundamentals in class and lays the groundwork for the level 3 assignment.
- These assignments should be challenging, but should take no more than two hours to complete. If you find a level 2 assignment taking longer than this, please **seek assistance during office hours**.
- Instructors are willing to discuss almost any aspect of a level 2 assignment. There are very few questions on these assignments where we will be cagey about whether a particular answer is correct, but we will always be willing to discuss errors in how you came up with your answer.
- Each level 2 homework assignment is worth 20 points, but only your best eight assignments count toward your grade.
- **Submit:** Goformative (link varies per assignment)
- **Value:** 20 points x 8 assignments = 160 points

## Level 3 (Mastery) Homework

- The level 3 homework assignment does not require any new material. However, successful completion will require clever application of material from the level 1 and 2 homework and (almost always) some element of mathematical proof.
- Level 3 homework will require at least 3 hours of work. If you find progress is slow after an hour of work, you should **seek assistance during office hours**.
- Instructors are happy to discuss mastery assignments, but answers will be less straightforward since the goal is helping to guide the student's original thoughts.
- Level 3 homework assignments are graded based on **mastery**. Here are more details about mastery grading.
  - Only competent efforts will receive **any** points at all.

- While mastery assignments will be submitted on Canvas or Goformative, the grade will only be entered after a **conference with an instructor**. It is the student's responsibility to schedule this conference within a week of the deadline. In the conference, the student must show complete understanding of their solution to get full marks.
- If a solution falls short of mastery but is on the right track, the student will be given partial credit and a chance to resubmit. In general, the resubmission window will be a week from the conference. Students are strongly encouraged to have some discussion of their solution prior to their first submission to ensure that they are on the right track and are able to resubmit.
- This policy is mirrored in abridged form in the [Course Overview and Policies Page](#) in the "Grading Policies" section.
- Each level 3 assignment is worth 50 points, but only your best five count toward your grade.
- **Submit:** Goformative (link varies per assignment.) Additional work from resubmissions may be submitted on Canvas on the assignment page.
- **Value:** 50 points x 4 assignments = 200 points

## Quizzes

- There is one quiz for each of the 14 full weeks of class. They will always cover the previous week's worth of material and/or a documentary. Of the 14, only 10 will count for credit.
- Quizzes are open notes.
- **Submit:** Goformative (link varies per assignment.) during class
- **Value:** 10 points x 10 assignments = 100 points.

## Pre-Classwork

There will be an assignment due prior to (usually midnight before) almost every class period. These will usually take around half an hour and never longer than an hour. This is as close as we get to a lecture in this course. Sometimes there will be a mini-lecture with definitions and examples, but sometimes it will just be some reading and prompts to focus your thoughts for class.

- **Submit:** Goformative (link varies per assignment.) prior to class.
- **Value:** 5 points x 20 assignments = 100 points

## Classwork

Most class periods are devoted to class discussion or group activities. Students are assessed based on their participation in these activities.

- Participation in every class activity is worth 5 points. There are 22 such activities.
- It is impossible to make up a missed class activity since interaction is a crucial part of them, but 4 of these assignments are dropped to account for unavoidable

absences

- **Submit:** Goformative (link varies per assignment.) prior to class.
- **Value:** 5 points x 18 assignments = 90 points

## Grading Scale

There are 1000 total points in this class, broken down as follows.

Pre-Classwork Assignments 0 assignments, 5 pts each)	100 points (2
Classwork est 18, 5 pts each)	90 points (b
Lv1 Homework est 10, 10 pts each)	100 points (b
Lv2 Homework est 8, 20 pts each)	160 points (b
Lv3 Homework (Mastery) est 4, 50 pts each)	200 points (b
Quizzes est 10 of 14, 10 pts each)	100 points (b
Final Project 25 pts paper, 125 pts visual aid)	250 points (1
<b>Total</b>	<b>1000 points</b>

A full description of these assignment categories are in the [List of Graded Work](#). Final grades are assigned on a 125 point scale:

- 1000-875 is an A
- 874-750 is a B
- 749 – 625 is a C
- 624 – 500 is a D
- Anything lower is an E

A C or higher is needed to meet degree requirements. Plus and minus grades are awarded based on the strength of the final project, Lv3 homework, class participation, and overall growth over the course of the term. Otherwise, the grading scale is strictly adhered to. Grading in this class is consistent with the UF policies at <https://catalog.ufl.edu/UGRD/academic-regulations/grades-grading-policies/>. You can also find UF's grade point policy at this link.
