Sets and Logic Time and Location

Period 3 (11am-12:15pm) ONLINE

Office hours

TBA

Text

'*Book of Proof*' by Richard Hammack (third edition); the author has kindly made available a pdf copy of [Book of Proof](#)

Topics and Policies

Much of 'Book of Proof' will be covered, largely following the order in which it is presented in the text. A significant aspect of the course is the attention to critical reading and writing skills; the course will certainly address a variety of mathematical topics, but the critical point of view is as important as the topics themselves.

A more detailed description of the course, including the topics to be covered and the testing to be employed, will be found on the Canvas page for the course.

For various matters of policy, please see 'Policies plus' at the [Files](#) page.
