

## Differential Equations

MAP 2302 – 2903  
Spring 2020

---

**Time:** MWF period 4  
**Place:** MAT 7  
**Phone:** 352-294-2339  
**Office:** 438 Little Hall  
**Email:** avince@ufl.edu

**Textbook:** Fundamentals of Differential Equations (7th edition)  
by Nagle, Saff, Snider

**Office Hours:** Monday, Wednesday, Friday period 6  
(or by appointment)

## Topics

### Introduction

- What is a differential equation
- Ordinary – partial; linear – nonlinear
- Order of a differential equation
- Exact vs numerical solutions to a differential equation
- Existence and uniqueness of first order ODEs
- Direction fields Euler's method

### First Order Differential Equations

- Separable DEs
- Linear DEs
- Exact DEs
- Bernoulli equation
- Substitution

### Modeling with First Order Equations

- Population models – logistic equation
- Mixing problems
- Newtonian mechanics
- Heating and cooling

### Linear Second Order Equations

- Spring problems
- Constant coefficients – homogeneous
- Constant coefficients – non-homogeneous
- Variation of parameters

variation of parameters  
Undetermined coefficients

#### Laplace transform methods

Laplace transform and the inverse  
Solving initial value problems  
Laplace transform of discontinuous functions, periodic functions, Dirac Delta function  
Convolutions

#### Systems of Equations

Phase plane, equilibrium solutions, trajectories  
Classification of critical points  
Matrix methods for linear systems

## Messages

### Welcome to Differential Equations

Free tutoring at the Teaching Center, SW Broward Hall. Check [Teaching Center](#) for the time schedule.

Students with disabilities requesting accommodations should first register with the [Disability Resource Center](#) (352-392-8565) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

**The course will be conducted in accordance with the [academic honesty policy](#), and policy regarding the use of copyrighted material.**

“Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at: [attendance policies](#).

Information on current UF grading policies for assigning grade points may be found at: [grades](#).

Students are expected to provide feedback on the quality of instruction in this course by completing a course evaluation online via GatorEvals. Guidance on how to give feedback is available at <https://gatorevals.ua.ufl.edu/students/>. Students will be notified when the evaluation period opens and can

complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluations results are available to students at <https://gatorevals.ua.ufl.edu/public-results/>.
