

MAS 3114 (Web)
SPRING 2017

SYLLABUS

COURSE TITLE: Computational Linear Algebra

CATALOG DESCRIPTION: Linear equations, matrices, and determinants; vector spaces and linear transformations; inner products and eigenvalues. This course emphasizes computational aspects of Linear Algebra.

COURSE CONTENT: MAS 3114 is designed to serve science, computer science, quantitative science, engineering majors, and mathematics minors. Mathematics majors are required to take MAS 4105.

MAS 3114 is a 3-credit course on linear algebra whose topics are of computational nature. The topics include linear equations, matrices, determinants, vectors, vector spaces, linear transformations, inner products, eigenvalues, and applications.

Computer projects are assigned (5 per semester). We require the students to learn MATLAB, a programming environment, for the projects. Proofs are not stressed as much as in MAS 4105 Linear Algebra 1. The course is delivered entirely online.

PREREQUISITES: familiarity with a programming language and a grade of a C or better in MAC 2312.

INSTRUCTOR: **Dr. Larissa Williamson**
Office: Little 380, Tel. 352-294-2341
E-mail: lwill@ufl.edu

E-learning (Canvas): <https://lss.at.ufl.edu/>

The course is divided into **5 units**:

<u>Unit 1</u>	M01 – M06	Linear Systems
<u>Unit 2</u>	M07 – M14	Matrices & Determinants
<u>Unit 3</u>	M15 – M21	Vector Spaces & Bases
<u>Unit 4</u>	M22 – M26	Eigenvalues & Eigenvectors
<u>Unit 5</u>	M27 – M32	Orthogonal Sets & Linear Models

FINAL EXAM: M01 – M32

Course Calendar

MAS 3114

Spring 2017	Monday	Tue	Wed	Thursday	Friday
January	2	3	4 M1	5	6 M2
	9 M3	10	11 M4	12 Modules1-3 due	13 M5
	16 Martin Luther King Day	17	18 M6	19 Modules4-5 due	20 Project 0 due Review 1
	23 M7	24	25 M8	26 Modules 6-7 due Review1 LC due	27 Project 1 due M9
February	30 M10	31	1 M11	2 Modules 8-10 due	3 M12
	6 M13	7	8 M14	9 Modules11-13 due	10 Review 2
	13 Exam1:M1-14	14	15 M15	16 Module 14 due Review2 LC due	17 Project2 due M16
	20 M17	21	22 M18	23 Modules15-17 due	24 M19
March	27 M20	28	1 M21	2 Modules18-20 due	3 Review 3
SPRING BREAK March 4 – March 11					
	13 M22	14	15 M23	16 Modules21-22 due Review3 LC due	17 Project3 due M24
	20 M25	21	22 M26	23 Modules23-25 due	24 Review 4
	27 Exam2:M15-26	28	29 M27	30 Module 26 due Review4 LC due	31 M28
April	3 M29	4	5 M30	6 Module 27-29 due	7 Project4 due M31
	10 M32	11	12 Review5	13 Modules30-32 due Review5 LC due	14 Quiz:M27-32
	17 Review	18	19 Final Exam: M1-M32	20 No Class	21 No Class

TEXTBOOK & ACCESS CODE:

1) We use the following textbook in this course:

Linear Algebra and Its Applications, 5th edition,
by David C. Lay, Steven R. Lay, Judi J. McDonald*

2) Access code to **MyLab & Mastering** is required in the course.

An access code can be obtained through authorizing charges to your student financials account and is provided at a discounted price**

You must authorize charges on or before 11:59 PM on Tuesday, January 24, 2017. If you do not wish to authorize charges to your student financials account or if it is after 11:59PM on **Tuesday, January 24, 2017, you may purchase an access code at the bookstore instead.**

* Registration with MyLab gives you an access to an electronic version of the textbook. If you wish to purchase a print text you may also purchase those at the bookstore at a discounted price.

**Please see Course Materials and Registration Instructions on Canvas for complete information on obtaining an access code to MyLab through authorizing charges to your student financial account.

LECTURE NOTES: Lecture note shells make the note taking easier and are required in the course. They can be printed from Canvas at <https://lss.at.ufl.edu/> (under **Lecture Notes**) or purchased at Target Copy (1412 W University Ave, Gainesville, FL 32603).

MODULES & DUE DATES: It is advisable to complete a module on the date indicated in the Calendar so that you will stay on track and avoid having too many Modules to complete by the Due Date. Each Module# becomes available at least 1 week prior to the date marked M# in the Calendar and will be closed on the Due Date at 11:59 pm ET. The assignments, which are required to be completed for each Module, include On-line Homework and Learning Catalytics questions.

REVIEW MODULES: The dates indicated in the calendar as “Review# LC due” are the due dates for Review Modules. The assignments that are required to be completed for each Review Module are the **Learning Catalytics questions**.

EXAMS & QUIZ: There will be two Exams, one Quiz, and an optional Final Exam offered during the term. Exam 1 covers Units 1-2, Exam 2 covers Units 3-4, the mandatory Quiz covers Unit 5, and the optional Final is cumulative – it covers Units 1-5. All exams in this course must be proctored through ProctorU. Please see complete information about the Exams and ProctorU on Canvas under the link Exam Information. The Quiz is mandatory but it does not require proctoring. All exams and quiz have to be taken on the day indicated in the Calendar. All exams are multiple-choice and will be graded by the software upon submission on a scale from 0 to 120. The Quiz is also multiple-choice and graded on a scale from 0 to 60 points. It may be necessary to miss an Exam during the term or you might not be satisfied with one of your grades earned on the Unit Exams. For these reasons, an **OPTIONAL FINAL EXAM** will be given on the last day of classes. The best 2 out of 3 exam scores will count.

IMPORTANT: No calculators are allowed on the Exams!

While taking an exam with ProctorU, you cannot open ANY other program or file on your computer except the ones that are required. If you open a program or file such as MATLAB, Calculator, MyMathLab homework, or Lecture Notes, the website/file will be blocked and your exam will be immediately compromised by the MyMathLab software.

MAKEUP POLICY ON EXAMS: If you are missing a Unit Exam due to legitimate documented circumstances, you have an option either to take the Final Exam as a MakeUp or, if you wish to make it up before the last days of classes and save the Final for another test, you can schedule a makeup earlier: please contact Dr. Williamson (lwill@ufl.edu) and provide the documentation at least a week prior to the test or immediately afterwards if you were sick. Late excuse documentation will not be accepted. No makeups will be given at the end of the term. Missing the Quiz or Final exam without appropriate documentation and taking a makeup for it will result in deduction of points at the instructor's discretion.

TEXTBOOK HOMEWORK: Textbook homework problems are assigned after each lecture. **They will not be graded** but should be considered as an additional tool for mastering the material and preparing for the Exams. A list of recommended Textbook Homework problems is located in each corresponding Module on Canvas.

TEXTBOOK READINGS: Reading the textbook is a part of learning process. The students are strongly recommended to read the corresponding sections of the textbook AFTER viewing Part I or Part II of a lecture and BEFORE taking the quiz in Learning Catalytics. The pages of the textbook that match the content of a lecture are located in each corresponding Module on Canvas.

ON-LINE HOMEWORK: Each on-line **Homework** assignment (HW) is a set of problems assigned in MyLab and numbered according to the module covered. A HW assignment is due at 11:59 pm on the due date indicated in the Calendar and on MyLab Assignments page and **will be closed after the due date. A credit for a HW will be given according to the percent value of the work completed.** There will be total of 32 assignments offered and the **2 lowest scores will be dropped.** A maximum of 90 points can be earned on HW.

MAKEUP POLICY ON ON-LINE HOMEWORK: If you missed the due date on homework on a legitimate and documented reason, you have to present a valid documentation to Dr. Williamson prior to the due date or right afterwards if you were sick. Late documentation will not be accepted. **No extensions on HW will be given after the due date without an appropriate documentation.**

PROJECTS: 5 computer projects will be assigned during the semester and submitted in Canvas before the due dates indicated in the Calendar. All projects are to be completed by using MATLAB software. Please visit the link "MATLAB Projects" on the Canvas homepage for more information. Project 0 is worth 10 points and each of the Projects 1 – 4 is worth 30 points. Thus, up to 130 points can be earned on the Projects.

IMPORTANT NOTE: Homework, exams, and projects will not be reviewed, offered, and/or accepted for grading at the end of the term. We will not accept any late excuse documentation. You have to present to your Instructor an appropriate documentation **before you miss an Exam or right after you come back to school if you were sick** to be eligible for a makeup. You can discuss a Unit Exam, project, or homework within one week and the Final exam – within 2 days with your instructor if there is a grading error or any other problem. Late submission policy on Projects is posted on each individual Project page on Canvas.

LECTURE PARTICIPATION: Your Lecture Participation will be monitored by Pearson’s Learning Catalytics software that can be accessed from MyLab & Mastering after you register with the site. Please see the complete information on registration and access to Learning Catalytics on the Canvas page “Course Tools and Technology” under “Course Materials & Registration Instructions”. Your responses will be graded and recorded in the gradebook. A total of 38 sessions will be offered. There are 2 questions per session. Each question is worth 1 point and the grade will be assigned as 75% for participation and 25% for correctness. Each session will be counted out of 2 points. **The three lowest scores for Lecture participation will be dropped at the end of the term.** The total score will count out of 70 points.

CALCULATOR POLICY: Calculators may be useful for some homework problems but are not required in the course and not allowed on the exams.

SPECIAL ACCOMODATIONS: Students with learning disabilities should request accommodations according to the UF policy. Please check on the current status with DRC.

COURSE GRADE: The course grade is based on 590 points accumulated as follows:

35	Lecture Participation	@	70 points	11.86 %
30	On-line homework	@	90 points	15.25 %
5	Projects	@	130 points	22.03 %
1	Quiz	@	60 points	10.17 %
2	Exams	@	<u>240 points</u>	<u>40.69 %</u>
	Total:		590 points	100 %

The course grade is the grade satisfying the conditions below and **will be strictly adhered** to:

	Minimum %		Minimum %
A	90 %	C-	62 %
A-	86 %	D+	58 %
B+	82 %	D	54 %
B	78 %	D-	50 %
B-	74 %	E	0 %
C+	70 %		
C	66 %		

GRADE POSTING: All grades will be posted in a timing manner on E-Learning (Canvas) at <http://lss.at.ufl.edu> . You are advised to check regularly whether your grades are handled and recorded properly. You should immediately report any problem with your grade to your Instructor.

HELP: Please visit the Resources & Help link on Canvas Homepage for complete information.
